# NORTH YOUNG ROOM

Young rooms are no longer just living spaces; they are becoming special places that reflect inspiration, creativity, and personal style. The North Young Room Collection transforms these spaces into warmer, more organized, and airier environments with its nature-inspired design language.

At the heart of the collection, solid-looking wood textures with a strong, tactile feel are combined with the understated elegance of moonstone tones. This balanced composition, created by Karina and Moonstone melamine surfaces, offers both a modern and timeless aesthetic, allowing it to blend seamlessly with various interior styles. The calming effect of natural tones provides a peaceful foundation for young people's daily lives. One of the standout features of the North Collection is its ability to combine functionality with aesthetics.

Rounded corners and elegant leg details used in the design give the collection a soft and inviting appearance. The continuation of profile details across doors and drawers creates a cohesive design language, while the use of moonstone-colored profiles enhances the modern character. Inside the wardrobes, cotton-voison tones extend this sense of harmony into the interior spaces.

The modular structure of the collection offers flexible solutions for different needs. With 3- and 4-door wardrobe options, a functional desk and upper module combinations, a bookcase, a hallway unit, and complementary pieces, it provides a comprehensive solution for both storage and study requirements. Bedstead and storage bed options are also key elements that enhance comfort. The North Youth Room not only delivers aesthetic design but also supports young people in starting each day in an organized, comfortable, and inspiring environment.
