The most elegant way to bring out our inner free spirit at home... Kelebek Furniture's new Bohemian Collection offers an escape route for those who wish to break away from the monotony of modern life.

Masterfully blending the warm tones of nature, the unique touch of handcrafted details, and vintage influences, this collection tells a different story with each piece. Seating groups that combine the natural texture of wood with earthy tones, accessories adorned with macramé details, and home textile products featuring ethnic patterns add a cozy warmth to every corner of your home.

Inspired by traditional crafts, Kelebek Furniture's design team has ensured that comfort is never compromised in this collection. Low-profile sofas, soft-textured armchairs, and handwoven carpets complete the seating areas, creating the perfect retreat to unwind after a long day. While appealing to the tastes of those who embrace a free-spirited lifestyle, each piece in the collection also upholds Kelebek Furniture's signature quality standards.

## DESIGNS WITH SOUL

“Breaking away from the monotony of modern life, we traced the footsteps of ancient cultures from all around the world. We explored the unique textures, colors, and lifestyles of different regions. On this creative journey with my team, we blended the craftsmanship of various cultures and the century-old techniques of local artisans with a modern design approach. Our goal was not just to create furniture but to bring pieces into homes that carry the rich heritage of world cultures—designs with soul.

In Kelebek Furniture's bohemian collections, you will see how the warmth of traditional craftsmanship seamlessly meets contemporary lines.”

## PARTS THAT COMPLETE THE WHOLE

“What truly reflects the spirit of the bohemian style is, in fact, the details. From lighting to decorative objects, we designed every accessory with this consciousness. Specifically, for our macramé wall hangings, we combined traditional knotting techniques with modern patterns. For our ceramic vases, we drew inspiration from Anatolian pottery, but modernized their forms. We worked hard on how to merge the handmade look with industrial production. Each piece was designed as an object that not only complements the entire collection but also tells its own unique story.”

## NATURALNESS AND FREE SPIRIT

“At the heart of our collection lies naturalness and a free spirit. When selecting fabrics such as cotton and linen, we aimed to breathe new life into our traditional motifs. In each piece, we used special weavings that give the feeling of being carefully crafted by artisans. The tassels on our cushions, the patterns inspired by our carpets, and our weaving techniques bring the bohemian spirit to life. In this collection, we’ve combined the warmth of the past with the elegance of today.”

## STYLISH ERGONOMICS

"When designing the forms of our furniture, we put great effort into maintaining both ergonomics and the relaxed spirit of the bohemian style. For example, we kept the seating height of our sofas slightly lower and created deep seating areas. In the wooden details, we specifically chose natural-looking finishes. We paid special attention to ensuring that each furniture piece is harmonious with the others while also having a strong presence on its own."
