

DOREN SOFA SET

DOREN

SOFA SET

The innovative power of technology comes to life in Doren, alongside Kelebek's premium comfort philosophy. Offering far more than an ordinary seating space, the Doren Sofa Set promises a fully personalized relaxation experience with its smart modules and motorized seating system.

The noble, upright stance of the black metal legs creates a perfect contrast with the softness of the velvet-textured fabric. The adjustable headrest mechanism, which lets you leave the day's fatigue behind with a single touch, blends ergonomics with luxury. Doren doesn't just furnish your living room—with its modular freedom and sophisticated character, it redraws the boundaries of your living space.
